Hats Off in the Synagogue.

The vexed question of "hats on" or "hats off" during public worship was settled at the annual meeting of the Anshe Chesed congregation, at the temple on Scoville avenue. The old Jewish custom of the male members of the congregation wearing their hats during public worship has always been in vogue in this congregation. A number of the younger and more progressive members have objected to the custom, and it has caused more or less discussion for several years. The older members held tenaciously to their hats, and the younger ones bided their time until they should have a sufficient majority converted to their views to change the custom.

The matter was brought up at the annual meeting, which was very largely attended. The hat question was discussed at great length, and several very warm speeches were made on both sides. It was finally put to a vote, and the members who are opposed to wearing hats were victorious by a decided majority. The decision was that hereafter the congregation shall worship with hats off, but those who desire to retain their head covering will be permitted to do so.—Cleveland Leader and Herald.

The Smallest Snake.

J. C. Couch, who lives a mile south of Fox Postoffice, has brought us what is probably the smallest snake ever captured in Ray county. It was caught about two weeks ago by his stepson, Theodore Jackson, and is of the black-snake species. It is only three inches in length, and at the thickest part of its body is only three-sixteenths of an inch in circumference. It is a perfectly formed reptile, but with an extra large head. Mr. Jackson accidentally killed it by spilling a few drops of petroleum on it. This snake could not teach school or plow corn like some of his kinsmen found in Colonel Jim Denton's neighborhood, but Mr. Jackson is just as proud of his find as the colonel ever was over any of his discoveries.—Richmond (Mo.) Conservator.

A Child Killed by a Pig.

While "playing funeral" in Kiota, Kan., Johnny Denner, aged six, met a strange fate. He and his eight-year-old sister had dug a hole and Johnny sat in it. When she had covered him with earth up to the neck, an old sow drove her off and then attacked the little boy. Several times the animal sunk her teeth in the lad's head, and when friends came to his rescue they found him dead.—Exchange

Neglect of a Hero.

The fact that Louis Kossuth is now a poor, blind old man, who is dragging out a miserable existence, embittered by sheer want and heartless neglect, is not complimentary to the age of hero worshipers which will spend fortunes upon gorgeous monuments to the dead and grudge a crust to the living.—Boston Globe.

It is given out that 50,732 accounts,

claims and cases, involving the sum of \$176,884,082 were settled during the last fiscal year by the United States government—a large increase of work with no increase of force as compared with the preceding fiscal year.

"August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used Relieved in your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never without a bottle, and if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system."

Constipation While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken Life of Misery with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis, Ind."

IN FAVOR OF A THIRD PARTY.

Representatives of the People's Party, Farmers' Alliance and Farmers' Mutual Benefit Association have been in session at Indianapolis for several days. The three organizations have been practically consolidated and are in favor of a third party. President Polk of the Alliance was unanimously re-elected. In his annual address he soundly denounced the old parties and strongly indicated his preference for the People's Party, and his re-election is regarded as a great victory for that party. The majority of the convention favored the consolidation or unification of the various reform organizations and practically accomplished it. Resolutions were adopted instructing the Alliance Senators and Representatives not to enter the caucuses of either of the old parties, but maintain a separate and distinct organization.

The action of the Alliance is construed to mean that it will place a third ticket in the field in 1892. It will maintain its organization and rely upon its Representatives in Congress, of whom there are eight in the Lower House and two in the Senate, to define the issues upon which it will enter the Presidential fight next year. Hon. Jerry Simpson and Senator Peffer of Kansas, who were ardent supporters of Mr. Harrison three years ago, are expected to manufacture enough campaign thunder during the next session of Congress to drown the voices of the old party orators, refute their arguments and supply the new party with enough campaign material to last it till the polls close the night of the Presidential election.

The silver men may now feel assured that there will be a silver advocate on a free coinage platform for President next year, even if the Democrats nominate Cleveland and the Republicans should head their ticket with the name of Harrison or Blaine.

THE AUSTRALIAN BALLOT SYSTEM.

The Australian ballot system has been established by law in twenty-five of the forty-four States of the Union. It has features that commend it to every one who believes in an honest and free expression of the qualified elections of the country. It insures secrecy and enables the elector to vote for the principles and candidates of his choice. It is a safeguard against intimidation and bulldozing, and it will, to a great extent, prevent bribery and vote-buying at elections.

Now that the superiority over the old ballot system is acknowledged, there is some dispute as to its introduction into the United States, various persons claiming the honor. The Chicago Press says the first article on the subject was written for the North American Review in 1879 or 1880 by Henry George. It attracted little, if any, attention, and it was not until 1886, when George was a candidate for Mayor of New York, and made ballot reform an issue, that it began to be discussed in the newspapers. Then the Knights of Labor favored the reform and advocated its adoption so earnestly and vigorously that the Legislatures of several States were forced to act, Massachusetts, New York and Montana taking the lead.

There are various modifications of the system, though all are intended to insure secrecy. In this State the law provides means by which a person physically disabled from preparing his ballot may be assisted in doing so, but it does not provide voters with brains, and as persons not physically disabled from making a mark opposite the name of the candidates for whom he intends to vote, must prepare his own ballot if he votes, the inference, therefore, is that the next campaign in Nevada will be an educational one, as those who cannot read will not know how to vote.

THE "OLD FARD" LETTER.

During the California campaign a year ago, when Boss Buckley "fixed things" to defeat Pond for Governor, what became known as the "Old Fard" letter was published. The Republican State Central Committee offered \$1,000 for the original letter. The Democratic State Central Committee produced what purported to be the identical letter written by Markham and demanded the reward, which was refused on the ground that the letter was not genuine. Now the San Francisco Report has the following on the subject:

"The Democratic State Central Committee has sued the Chairman of the Republican State Central Committee for the \$1,000 the latter body offered for the original of Markham's celebrated 'Old Fard' letter. We notice that a contemporary calls the suit 'political claptrap,' but the issue is one of cold fact and might as well be decided one way or another in a matter-of-fact way. If the letter be a forgery—Governor Markham says it is—the suit will establish that fact. If it be genuine—which, in view of Governor Markham's statement, is highly improbable—of course the reward offered for it must be paid."

PHYSICIANS AS BURGLARS.

An Organized Band of Robbers on the Mexican Border.

MOSES HOPKINS PAYS DAMAGES.

The Farmers' Alliance—A Mine Explosion—Assault With Intent to Kill—Gallagher to be Tried for Murder.

An Organized Band of Robbers.

WASHINGTON, November 21.—Senator Romero, the Mexican Minister, has called President Diaz's attention to Brownsville and San Antonio telegrams published recently in the newspapers to the effect that Catalino Garza was heading a revolution in northern Mexico which was supposed to be on the increase. Senator Romero is today in receipt of a cablegram from President Diaz, of which the following is an extract: "Catalino Garza has organized in the territory of the United States, in violation of their laws, an armed band of about 80 men. As the boundary line is so extensive he was able to cross at a place where there were no troops and robbed unprotected villages, he found on his way during thirty or forty hours he remained in Mexican Territory, and crossed over the Rio Grande to Texas without being molested or interfered with by the proper authorities of the United States. He and a few of his men are now reorganizing and recruiting in two ranches in Texas near the frontier and so far without interference from anybody. Garza never stopped to fight his pursuers, and one was killed and a few wounded he had were shot in the backs while running at full speed."

Prominent Burglars.

JOLIET, Ill., November 21.—The town of Gardner is greatly excited over the discovery to-day that two of its leading physicians, Drs. Boyes and McAdams, and a livery stable keeper, Briggs, are responsible for many burglaries there. They were caught this morning trying to blow up the safe of the Gardner Bank.

Burglaries have been so frequent the last year that a detective was employed, and he, finally suspecting the above named men, joined them in their plans. While they were in the act of blowing open the safe this morning, he summoned them to surrender, but they declined, and the detective shot and seriously wounded McAdams, and captured him. Boyes and Briggs escaped.

The Farmers' Alliance.

INDIANAPOLIS, November 21.—The Alliance and the F. M. B. A. have practically amalgamated, though each refused to adopt resolutions looking to consolidation. But the two organizations are just as firmly united as if the formal resolution had been adopted.

A Damage Suit.

SAN BERNARDINO, November 21.—Yesterday John G. North commenced suit for \$20,000 against the Bear Valley Irrigation Company, damages claimed by him on account of the Bear Valley reservoir flooding a portion of a quarter-section of land owned by him. This land has been flooded for nearly eight years. Last May North purchased the tract knowing it was flooded land. North was President of the Bear Valley Irrigation Company, but about a year ago his management became very unsatisfactory and his relations with the company ceased. Since then he has purchased the land referred to and commenced suit for damages.

The Yearling Record Equalled.

STOCKTON, November 21.—The yearling trotting record, held by Belle Bird, 2:26 1/4, was to-day equalled by the wonderful little Sydney filly, Frou Frou, owned by Valentin. Frou Frou has increased on her work here from 2:41 to 2:27, and to-day trotted a square mile in 2:26 1/4. Sanders held her back well in going to the half in 1:16, and sent her to a great finish. She made the quarter in 39 1/2, the half in 1:16, the three-quarters in 1:51 1/2 and finished the last quarter in thirty-five seconds, making her record 2:26 1/4. She is improving all the while, and Sanders has her marked for a 2:24 record this month.

The Democratic Executive Committee.

INDIANAPOLIS, November 21.—Secretary Sherwin, of the National Democratic Committee, has, by direction of the Chairman, issued a call for a meeting of the Executive Committee at Washington, December 8.

Attempt to Destroy a Mine.

PARIS, November 21.—A dastardly attempt to destroy valuable property was made to-day at Decauville, a village nineteen miles northeast of Villa Franche. In the neighborhood there is situated a silver lead mine, worked by a syndicate of English capitalists. Had the explosion occurred while the men were at work, it is doubtful if one would have escaped alive. So great is the damage, it will take a month to put the mine in a workable condition. There is no clue to the perpetrators of the deed, and no reason is known for the act.

Moses Hopkins Pays \$50,000 Damages.

CHICAGO, November 21.—A Bates, Me., special says the announcement is made here that Mrs. Hattie Moore, formerly a resident of that city, finally won her breach of promise suit against Moses Hopkins, the California millionaire, brother of Mark Hopkins. The suit has been pending in the California Courts for three years. Mrs. Moore was at first awarded \$75,000 damages and the case was appealed, and the amount reduced to \$50,000.

This sum, it is said, has finally been paid.

Thos. Gallagher Will be Tried.

PRESCOTT, A. T., November 21.—Notwithstanding the fact that eight jurors accepted the insanity plea of Thos. Gallagher in his recent trial for the murder of Constable Hawkins, defendant's attorneys have offered to allow their client to plead guilty to manslaughter, but the proposition has been rejected by the District Attorney and a venire issued for fifty additional jurors. The case is set for retrial November 27th.

It Was a Practical Joke.

HEALDSBURG, November 21.—The supposed robber who tied ex-officer Keeley to a tree and left him in the chilly night air, turns out on investigation to be a practical joker. Keeley's gun was loaded with sand for the occasion, and the parties in connection with the lonely camper, supposed to be a robber, stationed themselves in the surrounding brush and enjoyed the perfect success of their plan.

Assault With Intent to Kill.

SAN DIEGO, November 21.—Several weeks ago Oliver Conley assaulted his wife and cut her throat with a razor. His trial, which has been in progress several days, was concluded to-day. The jury found him guilty of assault with intent to commit murder and he will be sentenced next week.

Childish Faith.

An example of childish faith, of a kind a dull age wears away, was seen the other day. A little boy was sitting in the yard of an old country homestead on either side of him sat a huge dog, patient and loving. The sun shone down scorchingly on the trio, and its rays were uncomfortable. Shading his eyes with his curved hand the child looked skyward and said, "Put in that sun, please." The sun shone brightly, and the little fellow repeated softly, "Please put in that sun, man up in the sky; it hurts my head."

Just then over the face of the blazing orb there sailed a white summer cloud, then another, and the yellow blaze turned suddenly to a hazy, restful gray. Turning to the dogs, the little boy, putting an arm around the neck of each, said: "Did you see the sun pulled in, Romeo and Chieftain? When you want anything, if you are good, and you ask God for it, he gives it to you. The sun hurt my head, and I asked him to put it in, and don't you see how he did reach out and put it in for me?" The dogs looked wise, leaned their heads lovingly toward the diminutive little theologian, and whatever might have been their belief, kept an impenetrable silence.—Providence Journal

Why Eyes Are Light and Dark.

An interesting point is the cause of the different shades of color we see in the eyes. On a certain membrane in the interior are numerous cells, called "pigment" cells. When these are present in very great numbers they produce that deep black color of some eyes, and in proportion to their numbers, decrease also the depth of color, till finally a light blue is reached. In certain eyes these pigment cells do not exist at all, being wanting, indeed, all through the system, hair and skin. A person of this description is called an albino, and among animals we find a parallel in the case of the white rabbit.—Chambers' Journal.

Inventors Are Born.

Generally speaking, inventors, like poets, are born, not made. Nearly every boy can become a good mechanic or tradesman by diligent study and perseverance, but not every one can become a good inventor. If he has a "knack" for invention, study and hard work will greatly help him, and he stands a fair chance some day of succeeding as well in his chosen line as his brother playmates do in business or professional life. Invention is no longer a spasmodic work, but a legitimate branch of industry, which has its rewards and remunerations for those who follow it faithfully.—George E. Walsh in New York Epoch.

There Are No Blind Fish.

There are many animals in the world which pass all their lives in darkness, never seeing a ray of light. Every one has heard of the blind fishes of the Mammoth cave. The latter is the biggest of 500 great caverns in the United States. All of them are inhabited by numerous other sorts of creatures that have no eyes for vision. Literally speaking there is no such thing as a blind fish, since the most sightless of the funny tribe possesses visual organs in a rudimentary condition, but through want of use the optic ganglia and nerves have broken down and been absorbed.—Washington Star.

Money to the amount of \$28,642 and checks and notes to the value of \$1,471,871 were found in the 6,000,000 letters that reached the dead letter office last year.

Did Two Foolish Things.

An erring brother in Vermont got up in open meeting and made the following confession: "Brethren, my conscience compels me to confess that when boiling down my sap in the spring I put into the kettle two buckets of water and sold the sugar at the same price as that made from pure sap."—Congregation-alist.

A Solid Train of Beans.

A solid train of beans, twelve carloads in all, left Salcoy, Cal., recently, consigned to Chicago by the Farmers' Alliance of Ventura county. The train ran through to its destination as a special train.

A railway is now being built from La Paz, in Bolivia, to the headquarters of the river Madeira, in Brazil, which is the main tributary of the Amazon, thus giving a water outlet for the Bolivian products.

GRAND CARNIVAL AND Masquerade Ball,

DON'T BE CARELESS ABOUT YOUR COMPLEXION

It is woman's chiefest physical charm. It is often her only capital. It is always worth a great deal to her in business, love or social affairs. No matter how browned, or rough or sallow your skin may be, or how much it is disfigured with freckles, moth patches, black heads or pimples,

Will remove every blemish and leave your skin as pure and clear and white as it was in baby days. Your complexion will then be as nature made it. Instructions go with each bottle how to keep it so. Price \$1.00. All druggists sell it. For sale in Reno by
